# MAINE NEWSPAPER PROJECT

## Preliminary list of Holdings February 9, 1998

This printout lists the Maine titles found by the Maine Newspaper Project, the location where they were found, and whether they were original copies or microfilm. Not included is the extent of each repository's holdings. That additional information will be downloaded from OCLC and included in the final version, but for now, a repository in the list could have a complete run, a single issue, or anything in between.

The Project is still in the process of inventorying. There are two large collections which are not included: Bangor Public Library and a collection which is currently in transition from Lincoln County Historical Association to Maine Historical Society. In addition, there are smaller repositories did not respond to our initial survey and have not yet been contacted.

*Organization of the List:* The list is sorted by place of publication, then by title. If a place of publication is known, but was not on the masthead, it is in brackets. This means that the first three pages contain bracketed places before the "real" alphabet starts. If you were looking for a Freeport title, you would look in the first three pages for [Freeport], then turn to page 38, where the majority of the Freeport titles are found.

Once you find the title you are interested in, any microfilm is listed first, sorted by the name of the repository, followed by hard copy, which is also sorted by the name of the repository.

- Papers may be fragile and not available to researchers.
  - Repositories may be unable to locate the paper.
- > = CALL AHEAD!

## Holdings catalogued by the Maine Newspaper Project

*Note: This is a preliminary list as of Feb. 9, 1998. The inventory is not complete, and this list does not show the extent of each repository's holdings. The final product will show the holdings.*
