Subject: irene aftermath; my opinion

It is my opinion, based solely on my personal experience, is that the responding organizations and personnel did well. We lost power for a short period. Our roads were reasonably accessible; especially rte 25 considering the seemingly eternal and jammed-up project at the 25 / 59 intersection.

The workers, including police, CL&P, Road and forest cleanup folks were courteous, friendly, helpful, and, most importantly, competent.
