Creates the Nuclear Safety Education Assistance Act. Provides for grants to public institutions of higher education and grants for students. Amends the Illinois Low-Level Radioactive Waste Management Act to define terms. Provides that the Department of Nuclear Safety shall not license or renew the license of a waste disposal site until it is determined that granting the license would be consistent with the regional management plan and this Act. Provides that an applicant for a waste site must obtain the proper zoning. Revokes a site's license if such site accepts high-level radioactive waste or hazardous waste that is not mixed waste, and the county or municipality in which the site is located passes an ordinance ordering the license to be revoked. Requires the Director to select a single site to characterize as a primary waste disposal site. Allows the Director to choose sites to characterize as alternate sites. Provides that a county or municipality of a proposed site may receive State grants for the full cost of siting reviews (now 50% of cost up to \$50,000). Allows other units of local government in the siting area to apply for grants. Gives to employees of the Department, or their agents or contractors, the power to enter any land in order to conduct subsurface surveys. Amends the Environmental Protection

Act to exclude regional low-level radioactive waste facilities from the definition of "regional pollution control facility". Amends the Nuclear Safety Preparedness Act to permit funds deposited in the Nuclear Safety Emergency Preparedness Fund for grants and scholarships under the Nuclear Safety Education Assistance Act. HOUSE AMENDMENT NO. 1.

HOUSE AMENDMENT NO. 2.

HOUSE AMENDMENT NO. 3.

Provides that persons to fail to accept employment as a condition of a grant or scholarship shall repay the same to the Department. Provides that the Treasury separate monies in the Low Level Radioactive Waste Facility, Post Closure Care and Compensation Fund rather than the Low Level Radioactive Waste Facility Development and Operation Fund.

HOUSE AMENDMENT NO. 4.

Provides that the Director of Nuclear Safety shall not determine the need for the facility.

FISCAL NOTE (Prepared by Dept. Nuclear Safety)

HB-4035 contains various provisions which the Dept. believes may have fiscal implications. None of these provisions would affect GRF. They would, however, affect the Low-Level Radioactive Waste Development and Operation Fund, which is created from fees assessed against generators of low-level radioactive waste. In addition, some of the provisions could increase the revenues of units of local gov't. that are affected by the siting and development of a low-level radioactive waste disposal facility.

HOUSE AMENDMENT NO. 7.

Adds reference to: (Ch. 111 1/2, par. 241-13)

Deletes all. Reincorporates original bill as amended by amendments 1 through 4. Makes technical corrections. Adds a fee schedule of fees payable by owners of nuclear power plants. Provides that no unit of local government may prohibit the Director of Nuclear Safety from characterizing an alternative site.
