ILCON Art. X, Sec. 1

Proposes to amend the Education Article of the Illinois Constitution. Makes the educational development of all persons to the limits of their capacity, now only a goal under the Constitution, a fundamental right. Makes it the State's paramount duty to guarantee educational opportunity as a fundamental right of each citizen. In the provision that now requires the State to provide for an efficient system of high quality public educational institutions and services, makes the requirement a paramount duty of the State and also adds that the system provided be a thorough (as well as an efficient) system. Replaces the provision that gives the State primary responsibility for financing the system of public education with a provision that requires the General Assembly by July 1, 2002 to by law assume the preponderant financial responsibility for financing the system of public education. Phases in over 6 fiscal years, beginning with fiscal year 1996, the minimum funding increases necessary to comply with that requirement. Effective upon approval by the electors.

ILCON Art. X, Sec. 4 new

Proposes to amend the Illinois Constitution in the Revenue Article concerning real property taxation and exemption therefrom, and the Education Article concerning State reimbursement of school districts for loss of local property tax revenues. Exempts real property from increasing proportions of school operating property taxes over a 5-year phase-in period beginning in 1994 and require the State to reimburse school districts for the revenue loss attributable to those exemptions, subject to a reimbursement limit based on the 1992 school operating property tax rates of the school districts. Beginning with the 1994 assessment year, limits the annual assessment increase for each parcel of real property to the lesser of 3% or the rate of inflation, but provides that the limitation does not apply to the value of new improvements in the year in which those improvements or additions are completed nor to the value of any parcel of real property in the year in which that property is sold. SB-0592 CRONIN - DUDYCZ - O'MALLEY - FARLEY - DELEO AND FITZGERALD.

New Act

Creates the Scholarship Schools Pilot Program Act. Establishes a 4-year pilot program in one subdistrict in Chicago to give parents of children residing in the subdistrict an educational scholarship to attend the scholarship school of their choice. Repealed August 1, 1998. Effective immediately.

SENATE AMENDMENT NO. 1.

Provides that each scholarship school shall meet at least one of the bill's standards.

FISCAL NOTE (State Board of Education)

The current General State Aid per pupil for Chicago is \$1,147 exclusive of the Chapter 1 weighting. If the assumption is made that the maximum scholarship payment to be made by the State Board is \$2,500. This would be the net cost to the State Board. As the legislation specifies that only 2,000 scholarships can be given in any year, the total cost to the state would be a maximum of \$2.7 million (\$1,351 x 2,000).

HOUSE AMENDMENT NO. 1. (Tabled November 14, 1993)

Changes the manner of funding the scholarships and the manner in which the scholarship amount is determined. Provides for payment of the scholarships from a separate appropriation made for that purpose, and deletes a provision that would have required the State Board of Education to reduce the State aid otherwise due to the Chicago school district by the total amount paid for scholarships under the program.
