New Act

Creates the Workplace Safety and Alcohol and Drug Abuse Prevention Committee Act. Provides that each public and private employer of at least 50 employees shall establish a safety committee at each of the employer's primary places of employment (as defined in the Act). Provides for: composition, meetings, records, and training of committees; and duties of committees relating to hazard assessment and control, safety and health planning, developing procedures for accident investigations, and other specified matters.

**STATE MANDATES ACT FISCAL NOTE**

In the opinion of DCCA, HB-1780 creates a personnel mandate for which State reimbursement of 100% of the increased cost to units of local government is required. Based upon information

provided by various municipalities, the estimated cost for downstate municipalities is approximately \$3 million. Total Statewide costs for all local governments is not currently available, but it would be substantial.

Amends the Uniform Disposition of Unclaimed Property Act. Provides that "business association" includes a public corporation. Provides that property held in an individual retirement account is not presumed abandoned earlier than 5 years after the owner attains the age at which distributions from the account become mandatory. Provides that if multiple sales are held for abandoned property, notice need only be given for the first sale. Provides that deadly weapons are immediately presumed abandoned if they are found in a safe deposit box or other safekeeping repository on which the lease or rental period has expired. Provides that these abandoned weapons shall be transferred to the Department of State Police. Effective immediately.

FISCAL NOTE (Dept. of Financial Inst.)

Fiscal impact of HB 1795 is negligible. The Dpt. might receive

up to 10 such weapons in a typical year, averaging \$100 each in value. If 10 such weapons were transferred to the State Police instead of being auctioned, unclaimed property remittances would decrease by \$1000 for that year.

**HOUSE AMENDMENT NO. 1.**

Provides that deadly weapons shall not be presumed abandoned unless they are unclaimed by the owner for more than 5 years. Provides that prior to the transfer of the abandoned weapons to the State Police, the holder of the weapon shall communicate to the owner at his or her last known address, if any is known, setting forth the procedures necessary to prevent the assumption of abandonment.

**STATE MANDATES ACT FISCAL NOTE, AMENDED**

In the opinion of DCCA, HB 1795, as amended, fails to meet the definition of a mandate.

Amends the School Code. Provides that the State Board of Education shall establish and administer in participating school districts a work-study program under which high school students with a B average may participate for up to 20 hours per week and receive both academic credit and wages for their efforts. Provides for State grants to be made to the employers of the students in an approved program equal to 50% of the gross wages of the students. Effective immediately.

**FISCAL NOTE (State Board of Education)**

Granting back to the employer 50% of the cost of hiring the student would cost the State Board \$50 per student per week. There is no information about which districts may participate, availability of the program to public and private schools, if the program is per school year or fiscal year, or how many students may participate, making a complete analysis impossible. Administrative costs are not known at this time.

Amends the Pharmacy Practice Act of 1987 and the Illinois Food, Drug and Cosmetic Act. Adds Section captions; makes no substantive change.

**HOUSE AMENDMENT NO. 1.**

Provides limitations on drug substitutions. Requires that the selected drug does not utilize a technology or mechanism that is different from that utilized by the prescribed drug to control, enhance or direct the release, targeting, systemic absorption, or other delivery of a dosage regimen in the body. Provides that selection is limited to products listed in the United States Food and Drug Administration publication entitled "Approved Drug Products with Therapeutic Equivalence Evaluations" that carry an "A" rating in that publication and to products that are marketed under the identical New Drug Application approved by the FDA for the original brand name drug.

**FISCAL NOTE, AMENDED (Dept. of Public Aid)**

A sampling of drugs were used to come up with a 21.5% price differential per prescription between brand names and generics.

Drugs with high, middle and low prescription prices were used to represent the base price. It has been assumed that patents for 20 drugs may expire in FY'96. Based on these factors it is estimated that this legislation will cost the Dept. \$1.9 million in FY'96, with similar costs each year after.

**FISCAL NOTE, AMENDED (Dept. of Public Health)**

IDPH is not the appropriate agency to provide a fiscal note on this bill. State agencies which pay for pharmaceuticals would be the most appropriate agencies to provide fiscal impact statements on this legislation, such as Public Aid, Mental Health and CMS.

Amends the School Code. In the provisions relating to residential placement of disabled students, provides that the costs of educating the student also are eligible for reimbursement when placement is paid for in part by the State, and also makes the district of residence in such cases (i) responsible for the actual costs of the program and (ii) eligible for reimbursement.

STATE MANDATES FISCAL NOTE (State Board of Education)

Costs that are the districts' responsibility will shift to the State. The number of students eligible for this funding could expand to twice the individual students claimed and double or more the funding needed which, during FY 94, totaled \$35.4 M. Concerning LEAs, districts currently absorb two per capita tuition rates per pupil funded in private schools and all costs except \$2000 for public school-served children. HB1974 would allow full cost reimbursement.

Amends the Alternative Health Care Delivery Act. Provides that a subacute care hospital shall be licensed without additional consideration by the Illinois Health Facilities Planning Board if it filed an application with the Illinois Health Facilities Planning Board prior to September 1, 1994, received sufficient points to be considered by the Board, proposed to serve certain areas not currently being served, and complied with all regulations of the Illinois Department of Public Health.

Changes requirement concerning points to require that an applying hospital must have been awarded sufficient points required for approval by the Board. Deletes requirement concerning proposal to serve certain areas not currently being served. Adds immediate effective date.

**FISCAL NOTE, AMENDED (Dept. of Public Health)**

This legislation will increase the number of subacute care hospital models that will be licensed. IDPH will need to monitor and evaluate those models once they become operational, however, the Dept. has a mechanism in place to license and evaluate the number currently authorized by the Act. The Dept. could absorb the additional activities involved with the additional six (6) within the current structure and mechanism.

Amends the Illinois Vehicle Code. Provides that regulating, restricting, limiting, or banning the use of first division non-commercial passenger vehicles on any public roadway in a county with a population of more than 2,000,000 is an exclusive power and function of the State. Preempts home rule units with a population of more than 2,000,000.

**STATE MANDATES ACT FISCAL NOTE**

In the opinion of DCCA, HB 2125, as currently drafted, would appear to create a tax exemption mandate for which State reimbursement of the revenue loss to units of local government is required under the State Mandates Act. No estimate of the annual cost of reimbursement is available at this time.

**HOME RULE NOTE**

The immediate and long range impact of this legislation would

appear to prohibit the City of Chicago and Cook County from regulating, restricting, limiting or banning the use of first division non-commercial passenger vehicles on any public roadway. As currently drafted, this provision may have the effect of reducing current revenues of the City of Chicago received through the current imposition of a vehicle sticker tax.

Amends the Property Tax Code to exempt from property taxes property owned by Masonic organizations. Exempts any mandate created by this amendatory Act from the requirements of the State Mandates Act.

STATE MANDATES ACT FISCAL NOTE

In the opinion of DCCA, HB 2165 constitutes a tax exemption mandate for which State reimbursement of the revenue loss to units of local government would normally be required under the State Mandates Act. However, HB 2165 amends the State Mandates Act to relieve the State of reimbursement liability. Due to a lack of data, no Statewide estimate of the amount of revenue loss is available. However, from information provided by a statewide masonic fraternal organization, at least 350 different real properties would qualify for the property tax exemption.

Changes the title and replaces everything after the enacting clause. Amends the School Code. Combines into a composite educational purposes tax rate to be levied by school districts with a population of less than 500,000 inhabitants and to be accounted for in an Education Fund established by each such district, taxes currently levied by the district for its educational, operations and maintenance, and transportation purposes. Revises provisions relative to block grants applicable in school districts outside of Chicago and to regional offices of education. Eliminates legal school holidays and makes them commemorative holidays unless a school board determines to designate and grant any such day (other than days on which general elections for members of the Illinois House of Representatives are held) as a special

holiday. Creates a statewide, per-pupil flat grant program based on each school district's average daily attendance, with the grant amount being set at \$275 per pupil for the first 5 years of existence of certain newly formed unit school districts, \$250 per pupil for other unit school districts, and \$225 per pupil for elementary and high school districts. Revises the general State aid formula to assure that, beginning with the 1996-97 school year, each district's aggregate general State aid entitlement is at least equal to its entitlement level for the immediately preceding school year. Provides for supplementary State aid payments to certain districts. Requires the annual statement of affairs published by school districts to contain a notice advising the public that a copy of the financial statements and audits of the district are available, upon request, from the regional superintendent of schools upon payment of a reasonable charge. Requires school districts to undertake a comprehensive study of the district's academic standards and to complete the study within one year, the study to address specified matters, including establishment of a minimum grade point average for high school graduation and a policy on social promotion. Also provides for development of statewide, high academic standards through collective local initiatives, through public hearings and the coordinated efforts of the State Board of Education, regional superintendents, and school districts. Requires the State Board of Education to develop and file annually with the General Assembly a matrix that compares the audits of all school districts relative to State IGAP or Achievement Test scores, per pupil expenditures, and administrative costs per pupil. Under specified conditions, requires a unit school district or high school district to provide a remedial education or to reimburse a public community college or public university of this State for the cost of providing a remedial education to certain high school graduates of the district, including those who are unable to retain gainful employment due to academic deficiencies inconsistent with an appropriate high school education or who are required to register for remedial courses offered by the public community college or public university as a condition of admission to that institution. Provides for revocation of the certificate of a certificate holder who is convicted of first degree murder, attempted first degree murder, or a Class X felony. Prohibits the State Board of Education from accepting or expending federal funds granted or awarded under the federal Goals 2000 program, except when the State Board acts as a flow-through agency for direct release of those funds to school districts, in which case the State Board is authorized to retain up to 1% of the funds flowing through it for its related administrative costs. Revises provisions relating to IGAP tests, requiring the State Board to implement new State Achievement Tests by the 1998-99 school year, including an exit examination test to be administered in grade 12. Also amends the Prevailing Wage Act relative to the entity responsible for publishing the required notices that the county's prevailing wage has been ascertained. Amends the State Mandates Act to provide that the State need not provide reimbursement for any mandate created by the amendatory Act. Adds a severability provision and an immediate effective date.

Changes the title and replaces everything after the enacting clause. Adds provisions amending the School Code. Changes the size of the State Board of Education to 9 members and terminates the terms of current members on the later of January 1, 1997 or when all new Board members are appointed. Establishes a new pattern of regional representation on the Board. Provides that the chairperson selected by the Governor from the membership of the Board shall be selected with the advice and consent of the Senate. Requires the State Board of Education to hold public hearings and to by 2/1/97 submit a comprehensive plan to establish a block grant funding program for educational programs in all school districts. Creates a School Safety and Educational Improvement Block Grant Program with funding to be distributed to districts based on the prior year's best 3 months average daily attendance. In the State aid formula, adds a provision under which, for the 1996-97 school year, each district's general State aid is to be at least equal to the district's general State aid for the 1995-1996 school year, and provides for supplementary payments to be made from a separate appropriation to those districts whose 1996-1997 State aid entitlement will be less than their 1995-1996 general State aid entitlement. Revises the IGAP program to provide, beginning with the 1998-99 school year, for State assessment testing only in grades 3 and 5. Requires 3rd and 5th graders who fail to achieve and who are at least 2 years behind academic standards (established by the State Board of Education after public hearings) to attend an appropriate remediation program, which may be a 90 hour remedial summer school program in the district that is funded by the State. Also creates a summer school program for resident, at risk students of any grade who are identified as academically at risk in critical subject areas, requires children so identified to attend that summer school program, and amends the compulsory school attendance laws to reflect that requirement. Provides for Prairie State Achievement Examinations for 12th grade students, who receive the Prairie State Achievement Award if they receive a score of excellent on the examination. Makes student State assessment and Prairie State Achievement Examination scores part of a student's permanent record, and requires a school district to include in its school report card data relating to student performance on that examination. Prohibits the State Board of Education from accepting or expending federal funds provided for participation in the federal Goals 2000 or outcome-based education programs, except allows the State Board, when it functions as a flow-through agency for the direct release of those federal funds to school districts, to retain for its administrative expenses in performing

flow-through services up to 1% of the Goals 2000 program funds that flow through the State Board. Establishes prohibited uses with respect to those funds. Provides that under an Education to Careers initiative administered by the State Board of Education, the State Board, at the request of a participating school district and an Education to Careers business partnership, may provide for appropriate liability coverage. Establishes a policy of discouraging social promotions of students to the next higher grade. Provides for a school board and its parent-teacher advisory committee to develop a school board policy relating to school searches. Provides for expulsion of a student for up to 2 calendar years (now, 2 school years) for bringing a weapon to any school-sponsored activity or event bearing a reasonable relationship to school (or, as under current law, to school). Defines the term weapon. Provides that a student subject to suspension or expulsion is eligible for transfer to an alternative school program established under the School Code. Authorizes searches of school lockers, desks, parking lots, and other school equipment and property, as well as student personal effects left in those places and areas, without notice, consent, or a search warrant. Authorizes school officials to obtain law enforcement official assistance in conducting those searches, including the use of specially trained dogs. Prohibits a school board from knowingly employing a person convicted for committing attempted first degree murder or for committing or attempting to commit first degree murder or a Class X felony, and provides for suspension and revocation of the certificate of a holder who has been convicted of any such offense. Revises provisions relating to the school uniform or dress code policies of a school district. Provides that any such policy may be made applicable at all or only at certain attendance centers of the district when necessary to maintain an orderly school process and prevent endangerment to student health and safety. Includes as unprofessional conduct for which a certificate may be suspended conduct that violates ethical standards applicable to the security, administration, monitoring, or scoring of, or the reporting of scores from, IGAP tests or exit examinations. Increases to a Class A from a Class C misdemeanor the offense of preventing a child from attending school, and also makes interfering with a child's attendance at school a Class C misdemeanor. In the provisions relating to reports that courts and law enforcement agencies are to make to a school principal when a student of the school is detained for Juvenile Court Act or criminal or ordinance violation proceedings, specifies what must be included in the report and requires the report to be updated. Authorizes use of information in the report to protect the safety of students and employees in the school. Authorizes school districts that maintain grades 9-12 to enter into agreements that guarantee the academic skills and performance of their high school graduates in the workforce or in higher education. Prohibits a school board from declaring as a special holiday on which school employees are not required to work the days on which general elections for members of the Illinois House of Representatives are held. Adds a severability clause and an immediate effective date.

Deletes everything. Reincorporates the provisions of the bill as amended by H-ams 1 and 2 but restores the knowledge requirement for violations of the Act. Also permits seized vehicles, aircrafts, vessels, machinery, or other instrumentalities to be subject to public sale upon written consent of the defendant, or by judicial determination that they have been used to facilitate a violation of the Act.

Restates penalty provisions to provide that a second offense involving fewer than 500 counterfeit items or counterfeit items having an aggregate retail value under \$25,000, committed within 5 years of a previous offense, is a Class 4 felony. Authorizes seizure of a vehicle or other instrumentality an officer reasonably believed was "knowingly" used to facilitate a violation. Authorizes the trustee of a charitable trust to terminate the trust and transfer the trust assets if continuation of the trust has become impractical because of the trust's small size or because of changed circumstances that adversely affect the trust's purpose. Requires consent of the Attorney General.

**HOUSE AMENDMENT NO. 1.**

Replaces everything after the enacting clause with similar provisions concerning the termination of certain charitable trusts because of their small size or changed circumstances. If a trust is terminated and the trust assets transferred to a community foundation or similar publicly supported organization or to an endowment fund, requires administration of the transferred assets in accordance with the charitable purpose or purposes of the trust (if the trust is terminated because of its small size) or in accordance with the general intent of the trust donor (if the trust is terminated because of changed circumstances).

105 ILCS 5/18-8 from Ch. 122, par. 18-8

Amends the School Code. Makes technical changes in the provisions relating to general apportionment of State aid to school districts.

**HOUSE AMENDMENT NO. 1.**

Deletes reference to:  
 105 ILCS 5/18-8  
 Adds reference to:  
 105 ILCS 5/2-3.25g from Ch. 122, par. 2-3.25g

Changes the title and replaces everything after the enacting clause with provisions amending the School Code. Eliminates the annual May waiver report currently required to be filed by the State Board of Education. Prohibits the State Board from forwarding to or including in its reports to the General Assembly any waivers from School Code mandates or rules and regulations promulgated under that Code relating to special education, teacher certification, or teacher tenure and seniority. Provides that if the General Assembly grants or disapproves a waiver request or appealed request, the State Board of Education is controlled by that action with respect to subsequent requests that are substantially the same. Provides that if a later request is controlled by prior action of the General Assembly on a substantially similar request, the State Board of Education is to grant or deny the request based on the prior action of the General Assembly and is not to include that request in its annual report filed with the General Assembly. Provides that requests approved by the General Assembly may be for specified periods that are shorter than 5 years. Adds an immediate effective date.

STATE MANDATES FISCAL NOTE, AMENDED (State Board of Ed.)

There would be no additional cost to SBE nor to local school districts resulting from HB2693, amended. A minor savings might result from filing one annual report rather than two.

FISCAL NOTE, AMENDED (State Board of Ed.)

No change from SBE mandates note.

**HOUSE AMENDMENT NO. 2.**

Adds that modifications may not be requested from laws, rules, or regulations pertaining to special education, teacher certification, or teacher tenure and seniority, and prohibits the State Board of Education from including any such modification request in any report that the Board files with the General Assembly relative to waivers or modifications of School Code mandates, rules or regulations.

STATE MANDATES FISCAL NOTE, AMENDED (State Board of Ed.)

New Act

Creates the Bond Ordinance Hearing Act. Requires the corporate authorities of a district issuing non-referendum bonds or bonds subject to a back-door referendum to hold at least one public hearing on the corporate authorities' intent to issue the bonds. Sets out notice requirements. Provides that the corporate authorities shall not vote on the bond ordinance or resolution less than 30 days after the close of the last hearing. Preempts home rule. Provides that taxing districts that are issuing refunding bonds are not required to comply with the provisions of this Act.

**HOUSE AMENDMENT NO. 1.**

Deletes everything. Creates the Bond Issue Notification Act. Requires the governing body of a governmental unit selling non-referendum general obligation bonds or limited bonds to hold at least one public hearing on the unit's intent to issue the bonds. Sets out notice requirements. Provides that the unit shall not vote on the bond ordinance less than 7 days after the close of the last hearing. Provides that units that are issuing refunding general obligation bonds or refunding limited bonds are not required to comply with the provisions of this Act. Provides that school districts issuing bonds for work that is required in order to meet the minimum mandatory safety scores under the Health/Life Safety Code for Public Schools are not required to comply with the provisions of this Act.

**HOME RULE NOTE, H-AM 1**

HB2695, with H-am 1, preempts home rule authority and will increase local notice and hearing costs. There may duplication since the Open Meetings Act requires notice of hearing to vote on the ordinance, which contains the purpose of the bonds.

**STATE MANDATES ACT FISCAL NOTE, H-AM 1**

In the opinion of DCCA, HB2695, with H-am 1, creates a due process mandate for which no reimbursement is required.

**SENATE AMENDMENT NO. 1.**

Provides a form for the required notice in the Bond Notification Act. Exempts bonds issued for work that is required in order to implement a capital improvement program to provide for the health, life, and safety needs of the pupils, school personnel, and school districts from provisions of this Act. Provides that a unit of local gov't. may exempt itself from public hearing requirements of this Act by a 3/5 vote of its governing body if meeting those requirements are impractical due to an emergency need for revenue generated by the bonds.

**SENATE AMENDMENT NO. 2.**

**STATE MANDATES FISCAL NOTE**

In the opinion of DCCA, HB 2703, as introduced in the House, is a tax exemption mandate which required reimbursement in the amount of 100% of the loss in revenue of a local government directly attributable to the mandate exemption. Due to the nature of the bill, no estimate of the amount of reimbursement required is available.

**FISCAL NOTE (Dept. of Revenue)**

There would be an approximate loss to the State and local gov'ts. of \$1.0 million in sales tax receipts.

105 ILCS 5/24-2	from Ch. 122, par. 24-2

Changes the title and replaces everything after the enacting clause with provisions amending the School Code. Provides that a pupil who is suspended or expelled for possession of a weapon or possession, sale, or delivery of a controlled substance or cannabis on school property or for battering a staff member of a school and who thereafter transfers to another school district shall not be permitted to attend school in the latter district until the period of suspension or expulsion expires. Provides that unless residency within a school district is made an express condition of a person's employment or continued employment as principal of the district at the time of his or her initial employment in that capacity, residency within the district may not thereafter be made a condition of that person's employment or continued employment as a principal of the district. Provides that residency within a district shall not be considered in determining a principal's compensation or assignment or transfer to an attendance center. Authorizes written agreements between adjacent school districts under which a pupil who is a resident of one of those districts may attend

the schools of the other such district on a tuition free basis, if both districts determine that the student's health and safety will be served by that attendance and the student or student's parents have requested such attendance for reasons of the student's health and safety. For fiscal year 1997 through fiscal year 2000, requires the State Board of Education to allocate 100% of certain federal funds in the same manner as IDEA, PART B flow through funding for maintenance of instructional and related support services to students with disabilities. Prohibits school districts with a population in excess of 500,000 from designating as a legal or special holiday the days on which general elections for members of the Illinois House of Representatives are held. Adds an immediate effective date.

FISCAL NOTE, AMENDED (State Board of Ed.)

If only 1% of the 35,566 students suspended (1995 figures) seek a transfer, the potential cost would be at least \$500,000.

STATE MANDATES FISCAL NOTE, AMENDED (State Board of Ed.)

No change from SBE fiscal note.

Amends the Comprehensive Health Insurance Plan Act. Authorizes the CHIP Board to offer optional family plans and establish separate premium rates for the plans. Restricts coverage under CHIP to family members who meet medical and other eligibility criteria (currently if one family member meets the medical eligibility criteria, all family members are eligible for coverage). Total loss in CHIP premium income is estimated at \$159,000, including the \$97,000 in premiums currently required by State law but no longer actuarially required. Net loss of premium income without this latter change would be \$62,000. Neither change would result in CHIP needing to receive additional appropriated funds from GRF.

determines that the pupil is a nonresident of the district for whom tuition must be paid. Also makes the person who enrolled the pupil the person (i) who has the burden of going forward with the evidence at a hearing concerning the pupil's residency, (ii) who has the right to be represented at the hearing, and (iii) who is obligated to pay the tuition if the final decision of the school board is that the pupil is a nonresident. Adds that the provisions concerning residency, payment of tuition, and related matters are subject to the Education for Homeless Children Act and do not apply to or require payment of tuition by the parent or guardian of a homeless child in connection with his or her exercise of the choice-of-schools rights afforded under that Act.

New Act  
35 ILCS 5/203

from Ch. 120, par. 2-203

Creates the Educational Choice Act. Establishes a pilot program under which, beginning with the 1997-98 school year, the parents or guardians of pupils residing within a selected geographic region of the Chicago school district are entitled to vouchers for payment of qualified education expenses incurred by the pupils while enrolled at public or non-home based, nonpublic elementary or secondary schools that are located in the region selected. A pupil must be a member of a family that has a total family income that does not exceed one and one-half times the family income level necessary to qualify for free meals under the National School Lunch Act in order to participate in the program. The State Board of Education is to reimburse the school at which a pupil enrolls for the amount of the voucher (which cannot exceed the lesser of \$2,500 or the pupil's qualified education expenses reasonably incurred at the school at which the pupil is enrolled, subject to equitable allocation of a lower amount if the aggregate amount needed to fund vouchers for all qualifying pupils would otherwise exceed \$5,000,000 in any year). Creates a Council of Advis-

ers that is to select the region that is to be the locus of the pilot program. Defines terms. Adds provisions relative to the manner in which vouchers are requested, issued, and paid. Provides for a reduction in the Chicago school district's State aid by an amount equal to total vouchers paid, subject to a maximum reduction in one year of \$5,000,000. Provides that the amount of a voucher is not taxable for Illinois income tax purposes to a person who redeems the voucher. Amends the Illinois Income Tax Act to provide that an amount equal to a redeemed voucher shall be deducted from the adjusted gross income that constitutes the base income of an individual for Illinois income tax purposes. Provides that the Act is repealed July 1, 2001. Effective immediately.

#### CONFERENCE COMMITTEE REPORT NO. 1.

Changes the title of the Child Sex Offender Community Notification Law to the Child Sex Offender and Murderer Community Notification Law. In the Sex Offender Registration Act includes in the definition of "sex offense" first degree mur-

der when the victim was a person under 18 years of age, the defendant was at least 17 years of age at the time of the offense, and the offense was committed on or after June 1, 1996. Increases the penalties from a Class A misdemeanor to a Class 4 felony for a first offense by a sex offender who is required to register and who fails to comply with the registration requirements. Makes it a Class 4 felony for a person who is required to register to seek to change his or her name.
