625 ILCS 5/11-306

from Ch. 95 1/2, par. 11-306

Amends the Illinois Vehicle Code. Defines "automated red light enforcement system" as a system that photographically records a vehicle's response to a traffic control signal with a red light indication and is designed to obtain a photograph of the vehicle and its license plate. Provides that the owner of a vehicle used in a red signal violation shall be liable for the violation if the violation was recorded by the system, with exceptions. In a Section concerning administrative adjudication of violations, adds violations recorded by the System. Requires a municipality to forward a report of the adjudication to the Secretary of State. Effective immediately.

**STATE MANDATES FISCAL NOTE**

HB1746 creates a "local government organization and structure mandate" which requires no reimbursement by the State.

**HOME RULE NOTE**

HB 1746 does not preempt home rule authority.

**STATE DEBT NOTE**

HB 1746 would not impact the level of State debt.

**FISCAL NOTE (DOT)**

HB1746 will have no fiscal impact on DOT.

**HOUSE AMENDMENT NO. 1.**

Deletes reference to:

625 ILCS 5/6-204

Limits the definition of "automated red light enforcement system" to a system in a municipality with a population of 1,000,000 or more. Removes provisions concerning a municipality forwarding a report of an adjudication to determine liability for a violation recorded by an automated red light enforcement system to the Secretary of State instead of requiring the clerk of the court to forward a report of the conviction to the Secretary. In provisions holding the owner of a vehicle used in a red signal violation liable for the violation if the violation was recorded by a red light enforcement system, adds an exception for if the violation occurred when the vehicle was rented to another. In the provision concerning the exception for when the violation occurred when the vehicle was leased to another, provides that within 30 (instead of 10) days of receiving notice of the violation, the owner shall submit the name and address of the lessee. Provides that a municipality may enact an ordinance that provides for the use of an automated red light enforcement system to en-

force the red signal violation provisions of the Vehicle Code that result in or involve a motor vehicle accident, leaving the scene of a motor vehicle accident, or reckless driving that results in bodily injury.

**HOUSE AMENDMENT NO. 2.**

Provides that the provisions concerning an owner of a vehicle used in the red signal violation being liable for the violation if the violation was recorded by the red light enforcement system are subject to prosecutorial discretion.

Deletes everything. Amends the Early Intervention Services System Act. Redefines "developmental delay" to mean a delay of 25% in one or 20% in 2 or more of certain areas of childhood development as measured by appropriate diagnostic instruments and standard procedures. Requires the lead agency to promulgate a list of conditions which, when present in a child under 36 months of age, constitute a substantial risk of developmental delay. States that the chairperson of the Interagency Council on Early Intervention shall be the parent of a child with a disability. Provides that a member of the Early Childhood Intervention Ombudsperson of the Office of the Governor and a representative of Head Start shall be members of the Council. Requires the council to meet 6 times a year rather than quarterly. Requires the Council to prepare an annual fiscal year budget by October 1 of each year. Provides that the lead agency shall prepare and submit to the Council by September 1 of each year (i) an annual total budget reflecting income and expenses anticipated from all public sources and (ii) a complete report on all spending and income from all public sources during the prior fiscal year. Allows State agency staff assigned to the Interagency Council to be given specific tasks by the Council through formal resolutions of the Council. States that the lead agency may contract with a private entity to plan or implement any of its responsibilities or duties under this Section. Any plan or implementation shall meet the full requirement of federal law and provide full program and fiscal accountability to the State and the public. Requires the lead agency and other participating State agencies to implement this Act statewide by January 1, 1998.

**FISCAL NOTE (State Bd. of Ed.)**

This bill would impose no greater cost than is ordinarily incurred as professional staff keep abreast of current issues in the field. A more elaborate review that involves on-site visits would require an additional expense of \$5,000 or more, depending on the number and length of trips to the program sites.

**STATE MANDATES FISCAL NOTE (State Board of Education)**

No change from SBE fiscal note.

**FISCAL NOTE, H-AM 1 (State Board of Education)**

Costs per child could range from \$2,000 to \$10,000. Using the mid-point figure of \$6,000, cost for the broad eligibility of infants and toddlers (32,000 children) would be \$192 million.

**STATE MANDATES FISCAL NOTE, H-AM 1 (SBE)**

No change from SBE fiscal note, amended.

**STATE MANDATES FISCAL NOTE, H-am 1**

In the opinion of DCCA, HB1807, as amended by H-am 1, fails to create a State mandate under the State Mandates Act.

**STATE MANDATES FISCAL NOTE**

In the opinion of DCCA, HB1809 fails to create a State mandate under the State Mandates Act.

**FISCAL NOTE (Dept. of Public Aid)**

One of the goals of welfare reform is to dissolve the separation of the welfare population from the general population. Not exempting healthy pregnant women and women with young children from work activities is a means to this end.

Makes numerous changes relating to participation in and financing of the plan. In the Chicago Municipal and Laborer Articles, increases the minimum retirement annuity. Provides for retirement at age 50 with 30 years of service. Eliminates the age discount for employees who retire at age 55 with 25 years of service. Increases the minimum widow's annuity and allows certain widows to elect to receive 50% of the deceased employee's retirement annuity instead of a widow's annuity. Increases the child's annuity and removes the combined family maximum for certain persons currently eligible for child's annuities. In the Illinois Municipal Retirement Fund Article, makes the early retirement program available to employees of municipalities. In the Cook County Article, changes the population limit for establishing a pension fund under that Article from 500,000 to 3,000,000. Compounds the automatic annual increase for retirement annuitants and provides a 3% noncompounded annual increase for surviving spouses. Extends the expiration of the program of optional contributions until July 1, 2002. Allows certain persons employed by the Chicago Transit Authority to participate in the Cook County pension fund. Allows these persons to have their Cook County benefits based on their CTA salaries; to purchase Cook County credit for their past CTA service without paying any employer contribution or interest; and to buy up to 4 additional years of

Cook County credit for active or reserve military service. Amends the State Mandates Act to require implementation without reimbursement. Effective immediately.

Changes the title and replaces everything after the enacting clause. Adds provisions amending the School Code. For school districts with a population of less than 500,000 eliminates provisions for separate educational, operations and maintenance, transportation, working cash fund, and special education purposes tax levies and provides instead for a general operating fund levy to support those purposes. Provides that the rate of a district's general operating tax fund levy shall be the sum of the maximum rates at which the district was authorized by statute or referendum to levy taxes immediately before the amendatory Act's effective date for its educational, operations and maintenance, transportation, working cash, and special education funds. Provides for transfer of moneys from the general operating fund to the individual purpose funds and for transfer among the individual purpose funds as determined by the school board. Authorizes increases in the general operating fund levy rate, subject to certain limits, for certain purposes pursuant to referendum. Repeals various provisions of the Article of the School Code relating to school district tax levies, including provisions inconsistent with the changes proposed by the amendatory Act and provisions authorizing a supplemental tax levy by certain districts. Effective immediately.

**FISCAL NOTE, H-AM 1 (State Board of Education)**

There would be no fiscal impact on SBE for staffing. Modification of local districts' systems (assuming 850 districts) would total \$850,000. A State database would cost SBE \$50,000.

**STATE MANDATES NOTE, H-AM 1 (State Board of Education)**

No change from SBE fiscal note.
