HB-3585 SMITH,MICHAEL.

40 ILCS 5/15-140.1 new

Amends the State Universities Article of the Pension Code. Provides for an additional payment to persons receiving a retirement or survivor annuity, equal to half the monthly benefit, to be paid on the December 31 next following a fiscal year in which the System's investment return is at least 190% of the prescribed rate of interest determined for that year by the Board. Effective immediately.

PENSION NOTE
There is no increase in accrued liability associated with HB 3585, but there is a cost (that cannot be determined) as some investment returns that would normally stay with SURS would instead be paid out as benefits. This would increase State contributions over time by an amount that cannot be determined.

Amends the State Universities Article of the Pension Code. Imposes a 2-year limit on disability benefits that commence after the effective date if the disabled person becomes able to engage in any substantial gainful employment. (Article XIII, Section 5 of the Illinois Constitution may prevent this limitation from applying to certain current or former members.) Provides that the Board, rather than physicians and the employer, shall determine disability. Provides that the Board may consider hospital records, laboratory test results, and other information to determine the employment capacity and condition of the claimant. Reduces from 2 to one the minimum number of physician certificates that the claimant must provide and specifies that all costs incurred by the claimant in completing a claim for disability shall be paid by the claimant. Accelerates by one year the 7% automatic increase in disability benefit for persons whose benefit was granted on the first day of January. Specifies that a participant in the optional retirement program is ineligible to receive a disability retirement annuity. Also specifies that required age 70 1/2 distributions are payable regardless of whether an application has been filed, and delays those required distributions for one year in the case of persons turning age 70 1/2 before April 1 of a calendar year. Provides that the System need not make an involuntary age 70 1/2 distribution to a person who is employed under any retirement system that participates in the Retirement Systems Reciprocal Act. Provides that a past participant who is employed by a State or national teacher organization may elect to participate in the System and may purchase service credit for certain prior employment in that capacity. Effective immediately.

Amends the Illinois Nuclear Safety Preparedness Act. Increases certain operating fees. Imposes fees upon a nuclear power reactor that notifies the Nuclear Regulatory Commission that the nuclear power reactor has permanently ceased operations during State fiscal year 1998 or 1999. Increases certain fees for the transportation of spent nuclear fuel or high-level radioactive waste. Assesses the same fees upon the transportation of transuranic waste. Provides that those fees shall be paid by the shipper rather than the owners of the facilities. Provides that moneys in the Nuclear Safety Emergency Preparedness Fund may be used to support activities of the Illinois State Police and the Illinois Commerce Commission to develop and implement a plan for inspecting and escorting all shipments of spent nuclear fuel, high-level radioactive waste, and transuranic waste. Amends the Illinois Low-Level Radioactive Waste Management Act.

Provides that the owner of any nuclear power reactor that has an operating license for any portion of State fiscal year 1998 shall continue to pay an annual fee for the treatment, storage, and disposal of low-level radioactive waste through State fiscal year 2003. Effective immediately.

FISCAL NOTE (Dept. of Nuclear Safety)

The bill increases the fees per nuclear power reactor paid annually to the Dept. of Nuclear Safety. The annual fee would increase by \$249,455 per reactor in FY2001, by \$231,636 in FY2002 and by \$212,727 in FY2003 and subsequent years. With the announced closing of the Zion Nuclear Power Station's two reactors, net revenues will decline by \$150,000 in FY2001, \$450,000 in FY2002 and \$750,000 in FY2003 and subsequent years, even with this rate increase.

The bill also increases the fees assessed to shippers of spent nuclear fuel, high-level radioactive waste or transuranic waste through or within the State. The fee for each truck shipment will increase to \$2,500. The current fee is \$1,000. The fee for the first cask on a train shipment will be \$4,500, with additional casks assessed at \$3,000. The current fee is \$2,000 per cask. Fewer than ten shipments were made during each of the past two fiscal years.

No fees are increased or costs are added for the Low-Level Radioactive Waste Management Act. Any nuclear power reactor having an operating license during any portion of State fiscal year 1998 must continue to pay annual fees due for all State fiscal years through 2003.

Changes the title and replaces everything after the enacting clause. Adds provisions amending the School Code. For school districts with a population of less than 500,000 eliminates provisions for separate educational, operations and maintenance, transportation, working cash fund, and special education purposes tax levies and provides instead for a general operating fund levy to support those purposes. Provides that the rate of a district's general operating tax fund levy shall be the sum of the maximum rates at which the district was authorized by statute or referendum to levy taxes immediately before the amendatory Act's effective date for its educational, operations and maintenance, transportation, working cash, and special education funds. Provides for transfer of moneys from the general operating fund to the individual purpose funds and for transfer among the individual purpose funds as determined by the school board. Authorizes increases in the general operating fund levy rate, subject to certain limits, for certain purposes pursuant to referendum. Repeals various provisions of the Article of the School Code relating to school district tax levies, including provisions inconsistent with the changes proposed by the amendatory Act and provisions authorizing a supplemental tax levy by certain districts. Effective immediately.

FISCAL NOTE, H-AM 1 (State Board of Education)

There would be no fiscal impact on SBE for staffing. Modification of local districts' systems (assuming 850 districts) would total \$850,000. A State database would cost SBE \$50,000.

STATE MANDATES NOTE, H-AM 1 (State Board of Education)

No change from SBE fiscal note.
