Creates the Uniform Statutory Rule Against Perpetuities to supersede the common law rule. Amends the Statute Concerning Perpetuities, the Perpetuities Vesting Act, and the Trust Accumulation Act. Contains provisions under which the disposition of nonvested property interests and powers of appointment that would have been valid under the common law rule remain valid as of their creation under the statutory rule. Instead of invalidating an interest or power because of what might happen, as the common law rule does, adopts an approach of waiting to see what does happen by establishing a period of 90 years from the creation of the interest or power as a permissible vesting period. Provides for postponement and nonstaggered commencement of the time when certain interests and powers are treated as being created for purposes of determining the vesting period. Requires courts to reform instruments within the 90-year period prescribed by the Act upon proper petition by an interested party. Excludes specific types of interests and powers from the Act's application. Applies prospectively only. Provides that the Statute Concerning Perpetuities, the Perpetuities Vesting Act, and the Trust Accumulation Act apply only to interests created and instruments that become effective before the effective date of the Uniform Statutory Rule Against Perpetuities.

Amends the Teachers' Article of the Illinois Pension Code. Provides that a person who has not begun receiving a retirement annuity before the effective date of this amendatory Act of the 91st General Assembly and who has at least 30 years of service is entitled to a retirement annuity at any age. Effective immediately.

PENSION NOTE (Pension Laws Commission)

The fiscal impact has not been calculated, but it is estimated that allowing an unreduced retirement annuity at age 55 with 30 years of service would increase accrued liability by \$613 million at current retirement rates and that retirement at any age with 30 years of service would result in a larger increase.

PENSION NOTE, REVISED (Pension Laws Commission)

HB2916 would increase the accrued liability by an estimated \$1.15 billion. The required annual contributions have not been calculated, but would be significant.
