P.O. Box 100, Sacramento CA 95812-2000 (mail)
1001 I Street, 24th Floor, Sacramento, CA 95814 (hand delivery)

Couriers delivering written comments must check in with lobby security personnel, who can contact Jeanine Townsend at (916) 341-5600.

BACKGROUND

The State Water Board's OTC Policy requires owners and operators of existing power plants to implement measures to mitigate interim impingement and entrainment impacts to marine life resulting from their cooling water intake structures. The interim mitigation period commenced on October 1, 2015, and continues up to and until owners or operators achieve final compliance with the OTC Policy. Section 2.C(3) of the OTC Policy provides information required to demonstrate compliance with the interim mitigation requirements. The owners and operators of the eight power plants listed above elected to comply with interim mitigation requirements by providing annual payments to the Ocean Protection Council and State Coastal Conservancy for appropriate projects. The 2020-2021 draft determinations are based on entrainment and impingement impacts between October 1, 2020, and September 30, 2021.

State Water Board [Resolution No. 2015-0057](#) describes the procedures for calculating the interim mitigation payment and approving mitigation measures. In accordance with Resolution No. 2015-0057, the State Water Board prepared annual draft determinations calculating interim mitigation payments and is accepting written comments.
