Hello Crazy.

I'm sitting up in New York in the SNCC and I look down the list of names of people going on the walk and I saw your name down there along with a few other crazies. I don't know exactly what it took for you guys to go on such a walk; some call it guts and some call it courageousness, but they are all ~~REXXEX~~ worn out terms; so I guess you guys could describe what it took better than I could possibly imagine it. At any rate I feel that I can share your fears when you were walking along the highway. As for the other fellows from SNCC I somehow knew they would be along on the walk if anybody did.

The best parts of me are with you guys, which is my heart and mind. May all of your children be conceived in freedom for which you seek.

Yours for freedom,

WILLIE FERRELL
