

536 E. Jefferson  
Americus, Ga.  
1-12-63

Dear Dr. Finn,

We here in Americus and, in Southwest, Georgia are seriously concerned and recognize the need for your educational proposal. I have made myself the self-appointed "man-in-charge" and would like to know how can we as SVCC workers, <sup>can</sup> enhance our political and economic understanding. Any suggestions on how to set up programs, books that should be read, etc. would be greatly appreciated.

Also, we recognize the need for some sort of educational program that will be of interest and educational to the people (local) that are working with us. I have found that many of them need tutoring in such elementary subjects as spelling, arithmetic, and the like. We have taken the responsibility of tutoring them and they tutoring us in what I call "a huddy huddy". I teach you, you teach me sort of thing. Any suggestions, comments, ~~etc.~~ <sup>plans</sup> will be highly respected. My regards to your family. Uhuru,  
Bob Murto
