May 5, 1963

Dear Friend:

You have been much in our thoughts since we had the pleasure of your being with us. We have wondered how you feel about your trip and what assistance you now hope may be realized. We of course have wondered a great deal about Rev. Mr. Trent.

Practically no money is coming in now for Operation Freedom but we have thought of another way that help may come. We can no longer accept money from friends as a loan to Operation Freedom but there may be those with money which they want to send as a loan who would be willing to write to the individuals needing help directly. It would need to be with people who have some chance of paying it back though when they send it we will tell them that there is a possibility that it will not be returned. Does Mrs. McGee still need help? If she does will you please send me her full name and address, and state briefly her trials and persecution. Are there others whose loans we have approved who would have some hope of repaying you/ them that we have not sent? If there are such loans which your committee has approved will you please send me their names and addresses and we will include them in the appeal we will send.

It meant a great deal to us to become personally acquainted with you and we sincerely hope you can come this way again. The latch string will always be far out.

Sincerely yours,

Maurice McCrackin

And how much each one needs - please itemize!
