June 20 1963

Dear Mr. Moore:

I am writing to inform you the best I can I'm interested in helping your cause there in my own mute way. For the past few years I have tried also to aid where and when I could the present day issue which appears now to have crested. I personally am thankful to see your people on the rise, the same of the scenes bring grief to my soul and many tears. I regard Evers death as cruel, senseless, heartless and unforgivable.

For a long time I have admired (in silence) your friend Maurice McKrakin of Cin. A great man who has suffered for his ideals and sticking out his neck bravely for the underdog, the damned, the mistreated.

I'd like to send you a pkg of fine childrens clothing and hope you can dispense with them as you see fit. I'm an International writer...law student...lecturer on Japanese arts and HUMANIST....plus the fact I do some news work and make free tapes of my music and philosophy of life to Mes. Homes prisons and friends.

We are sure living in fast changing times...there's been enough abuse...poverty, sadness in the southland for too many years.

Now that enough self-realisation has captured the imagination of the public I feel things will get better for you all. DO NOT RELENT keep forging ahead as much as possible with the Non Violence theme. I have an honor from Ghandi before he died....plus 38 more world honors...in a quiet way I may be able to help some your causes.

Back here I live in a town where they are very mean towards the race..I work underground via mails and my articles and donations.

I'd be truly smeared if they knew it ALL what work I've done for ten yrs. free this desk for causes of this nature. In prison work I have fought legally to free your race free of charge...some released now and back in good graces and a good life.

I got 1 lifers out and 24 others for various charges....and learned quite a bit about our miserable systems and how they treat color.....I could write a shocking book on it all...prisons are cruel dirty false facades...and racial treatment was cruel.

I wish not weary you or burden you with what you already know as well....!

my objective ultimately in writing you is to extend to you my prayers my help such as it is be it \$\$ gifts or articles.

Im carrying a burden here myself, but try to share what I can with the less lucky/ I feel for the first time in years things will change now for the best...some will grumble and growl...but the people must not back down..its now even to die for the ideals of freedom.I am grietstricken over Evers death and sorry for his family he was a brilliant and great man with a fine education and motivations.

His death isnt in vain the..it will render courage, hope and new faith.

Sometimes people are more powerful in death than life.....life as you know is as heavy as a mt., death as light as a feather.....he isnt dead at all he will live forever in his great ideal.

I feel clumsy trying to express myself but I hope this mute note will give you also spirit, strength, undying will to go ahead all the way to the finale.

The uneducated need leadership of course and education to guide them more.

I read carefully the book on the Muslims also..etc..Im aware of the problems in full from all angles.

I only know before God we are all his children, in heaven there is no color line.. my people have sinned against yours horribly....well I knew it.

It is now a matter of courage...NEVER GIVING IN.....if you believe enough in an ideal your fear of death even doesnt exist.

Im white...french from Europe.....in the past knew poverty struggle to get where I am today and all my people killed in 2 wars.I would like to hear from you and about yours etc....seen.**SEAL YOUR MAIL TIGHTLY** for the local ~~yankees~~ peep, snesp and are sneaky and curious about my world work.Wrap your letter up so they cant read it through envelopes...I can do better work if left alone by such sneaks and perverts that snesp mails and our causes. Once I knew what your total goal is and your needs..Ill do all I can to help.You may write me freely for I realize the gravity of the age..times and purposes fully.May God help us ALL. Do not be dispendent...**FORGE ONWARD** many of us ARE WITH YOU ALL,ALL THE WAY.

Address me like this:

FLORENCE LA FONTAINE RANDALL, Ph.D.

RT. 1 LAKE DILLBEAR

Dillsbers Indiana
