FIELD REPORT

Reference - Ennis Chapter of Core:
Ennis Chapter of Core is instituting actions against school boards and the independent school district with reference to de-segregation of the schools.

The young people of Ennis have drawn up a list of demands whereby on some of these demands they can be dealt with immediately. This list of demands has reference to the deplorable situation within the school, whereby we know in the de-segregation suite it would effect a small majority of the Negro students. So in order to rectify the situation we are trying to have the Negro school improved.

Chapter Development:
The Chapter is developing by meets and bounds. My opinion is it has one of the most stable governments of any of the CORE Chapters in Texas.

The governing body of the chapter make-up is beautiful. We have a chairman 36 years of age, and a vice-chairman of 18. So you see this way is evenly distributed between youth & adult.

Conference:

I've been in Dallas having conference with Bruce on the situation in Ennis. He has been up here a numerous amount of times. Confirm with me on Ennis. We haven't come to any definite conclusion to offer to you at this time, but we will do so.

Yours in FREEDOM,

Tom Valetine
