Northbrook, Illinois*

Dear Lucy:

Thank you for the help that you gave Gene and me on our trip to Chicago. We were able to meet Betty Johnson and Dr. Quinton Young before we left. I was never able to contact Stephen Rose.

I'm sorry that I missed your phone call at Bernard's. We really had a hectic schedule, even stayed in the city until Friday.

The visit to the JOIN project was exciting. I hope you can make it there before too long.

We made about \$200 while we were in the city, and hope there will be more coming in. Mrs. Johnson is sending out a special mailing and we have sent several follow-up letters.

How was your visit to Mississippi? and the Highlander meeting?

Must close, there is still so much work, and we are getting ready to submit proposals to the foundations.

Have a good summer.

Peace,

Sue
Sue Thrasher

P.S. I was not able to go by your husband's office for my notebook. I have written him asking him to mail it to me. Sorry for all the bother.
