Mrs. Lucy Montgomery
General Delivery
Aspen, Colorado

Dear Lucy:

We received your shipment of the phonographs and the bongo drums today. All were in good condition. I will let you know when the other stuff arrives.

I haven't had a chance to look at the memorandum on building the centers—we're in the process of having a demonstration at the Little Rock federal building plus all the centers are opening and a few other projects are in various tangles with the law. I'll write you as soon as I get a chance.

I tried to call you the other day to ask if you'd bought the projector, because the demand for a cheap hand mimeograph machine seems much greater. Two of our machines are completely out of commission. This means that two of our projects about 50 miles from each other are sharing one machine, and two other places have none at all. (I guess propaganda comes before pictures sometimes...)

Hope you're having a nice vacation.

Yours in freedom,

Nancy Stoller
