

[1965]

**Valley View Weekly Report- Aug. 7-Aug. 14**  
**Rick Salinger**

**Sat. Aug. 7:** Went into Canton to get more lit., forms etc. Spent the day on the picket line in front of Fred's Dollar Store.

**Sun. Aug. 8:** Walked over to Pleasant Green for church. In the afternoon, to the continuation of the FDP County meeting, which was poorly attended due to various funerals.

**Mon. Aug. 9:** Green showed up in the morning, so wound up driving him and a carload of kids to Mt. Beulah for a workshop on leather-working. Due to the non-return of Green in the afternoon (when he had said he would come back to the office), the afternoon was shot waiting for him.

**Tues. Aug. 10:** Went in to Canton to buy a bicycle, due to the impossibility of accomplishing anything quickly on foot. Ordered one from Sears. Canvassed an area around Liberty Church (Canton) for an FDP event, then joined the picket line at IUPUI's Fair. In the night, helped integrate the Negro swimming pool. Wound up spending the night in the Canton office due to the reluctance of the inhabitants thereof to spend any gas in getting me back to Valley View.

**Wed. Aug. 11:** Got a ride out to Valley View at 1PM with Rev. Moore, since the Canton office inhabitants continued to be reluctant to use their gas. Did some canvassing on foot (partly at night due to the late start) in Prec. 13.

**Thurs. Aug. 12:** Canvassed in Precincts 13, 14, 15, on foot, and again partly at night due to lack of time.

**Fri. Aug. 13:** Green came over in the morning. The day was shot due to no one showing up at our St. Paul Workshop. That night, we weren't able to get to the workshop at Lee's Chapel, due to the non-arrival of Mr. Green to take us over there. This didn't matter too much, since no one showed up at this meeting either. The poor attendance is presumably due to lack of an adequate amount of canvassing, which is due to scheduling the meeting too soon, as well as no car.

**Sat. Aug. 14:** Picked up bike in Canton. Went to the movement meeting in the afternoon.
