Dear Amzie:

As I have indicated before, I am very anxious to get together some materials about your center as one of the developing Highlander-type centers in the South. We are getting out a two-year report in which we want to feature your work as one of the outstanding creative centers in Mississippi. To do this most effectively, I need to have some pictures of groups with which you are working, buildings that are used, or a picture of one building if it is identified with the center.

I need to have these materials by March 30 in order to include them in the report we are now preparing. If you have no pictures, please send us a written report of the work you are doing so that we can include that. I think it should include the programs you have run in the past, how effective they have been and any outstanding results, and any programs you are planning for the future. I shall be waiting anxiously to hear from you.

I am also very anxious to hear how the Workshop for Negro City, County and State Candidates is coming along. Mrs. Montgomery called me and seemed to be very excited about preparations, but since then it has been a complete blank. As you know, Highlander Center is committed to helping out financially. We need to know when you need some money and the amount in order that we can send it on.

I am looking forward to hearing from you about materials for the report we will be putting out.

Sincerely yours,

C. Conrad Browne
