Mr. Amzie Moore  
610 Crisman Street  
Cleveland  
Mississippi.

Dear Mr. Moore:

Enclosed is the next-to-last draft of the proposal for a Citizens' Rights and Complaint Center. (The name is still up for debate too!) Could you please give it a thorough going over and send your comments and revisions in as soon as possible. Those comments will then be incorporated by the Committee of four (Abram Chayes, Jack Conway, Bayard Rustin, Donald Straus) appointed at the June 26th meeting to prepare the final document for submission to Foundations. Time is of the essence if the proposal is to be ready in time for consideration at fall meetings of Foundations.

In addition to revisions and suggestions, could you be sure to indicate additional information on your present and past positions, activities, etc. which should be included in the description of Steering Committee Members which will be incorporated as part of the proposal. (See Appendix A.)

I know it is indecent to ask -- but could you furnish us with comments and recommendations -- even if by phone -- by Wednesday, September 13.

Many thanks.

Sincerely,

Edgar S. Cahn
