Dear Amzie:

I received a note from Ronny Pollack regarding the food stamp problem of Mrs. Luemether Stidhum of Mound Bayou, and a request that I call you for further information. Since then, I have been unable to contact you by telephone.

Could you call me? From the little information I have, it would seem that she is being treated unfairly. Losses due to fire are specifically mentioned in the food stamp manual as being deductible from the household income for purposes of determining the amount necessary to buy food stamps.

Sincerely,

Laura M. Engle
