

# COMBINED JOINT TASK FORCE OPERATION INHERENT RESOLVE

Public Affairs Office

December 15, 2020  
Release No. 20201215-01  
**FOR IMMEDIATE RELEASE**

## Combined Joint Task Force – Operation Inherent Resolve Monthly Civilian Casualty Report

**SOUTHWEST ASIA** – Since the beginning of operations in 2014, the Coalition and partner forces have liberated nearly 110,000 square kilometers (42,471 square miles) from Daesh, eliminating their self-proclaimed territorial caliphate and freeing 7.7 million people from Daesh oppression. The Coalition will continue to work with partner forces to deny Daesh any physical space and influence in the region as well as deny Daesh the resources they need to resurge.

The Coalition conducted 34,927 strikes between August 2014 and the end of October 2020. During this period, based on information available, CJTF-OIR assesses at least 1,410 civilians have been unintentionally killed by Coalition actions since the beginning of Operation Inherent Resolve.

We follow a rigid targeting process for all of our strikes to ensure strict adherence to the Law of Armed Conflict while attempting to avoid collateral damage. Every accidental loss of life is tragic, and it will remain our goal to take all feasible precautions to avoid putting civilians in danger in our pursuit of a ruthless enemy.

In the month of October, CJTF-OIR carried over 139 open reports from previous months and received 21 new reports. CJTF-OIR completed 18 civilian-casualty allegation assessment reports. Out of the 18 completed casualty allegation reports, no reports were determined to be credible. CJTF-OIR assessed all reports as non-credible. 142 reports are still open, including seven that CJTF-OIR had previously closed but reopened due to the availability of new information.

The results of each investigation of an allegation will fall into one of two categories, either "credible" or "non-credible." An assessment of "credible" means that our team investigated the allegation and determined that, based on available evidence, more likely than not, the death was the result of Coalition action. A "non-credible" evaluation means that the information we have to assess the allegation, using our available resources, cannot determine, to the standard of "more likely than not", that the death was the result of Coalition action. There could be a number of reasons for this, to include no corroborating strikes at that time or that location, there was insufficient evidence to support the allegation, or there is simply insufficient or overly vague data in the allegation itself.

# COMBINED JOINT TASK FORCE OPERATION INHERENT RESOLVE

Public Affairs Office

It is important to note that while the Coalition has a substantial quantity of data at its disposal to investigate every claim, we welcome any information from any source that will enable us to determine the truth. Furthermore, we routinely reopen closed investigations based on new information that might help us attain more accurate results.

**Non-Credible Reports:** After a thorough review of the facts and circumstances of each civilian casualty report, CJTF-OIR assessed the following 18 reports as non-credible. At this time there is insufficient information to assess that, more likely than not, a Coalition action resulted in civilian casualties. Numeric Key: [CJTF-OIR Allegation Number] / [Non-Governmental Organization Allegation Number] [Grid Coordinate]. The Military Grid Reference System coordinates specified in these reports are derived from the original allegation source.

1. Oct. 18, 2018, near al Soussa, Syria via Airwars report. After a review of all available records it was assessed that no Coalition actions were conducted in the geographical area that corresponds to the report of civilian casualties.  
3205/CS1811 37SFU962237
2. Oct. 19, 2018, in Hajin, Syria, via Airwars report. After a review of all available records it was assessed that no Coalition actions were conducted in the geographical area that corresponds to the report of civilian casualties. 3207/CS1814 37SFU690419
3. Nov. 4, 2018, in al Soussa, Syria, via Airwars report. The allegation provided insufficient detail to identify a specific date, time, or location to assess its credibility.  
3221/CS1824 37SFU805225
4. Nov. 19, 2018, in al Hanna, Syria, via Airwars report. After a review of all available records it was assessed that no Coalition actions were conducted in the geographical area that corresponds to the report of civilian casualties. 3233/CS1842  
37SFV546965
5. Nov. 20, 2018, in Hajin, Syria, via Airwars report. After a review of all available records it was assessed that no Coalition actions were conducted in the geographical area that corresponds to the report of civilian casualties.  
3235/CS1844 37SFU676401
6. Nov. 21, 2018, in al Shaafa, Syria, via Airwars report. After a review of all available records it was assessed that no Coalition actions were conducted in the geographical area that corresponds to the report of civilian casualties.
