**Good news! Horizon and Advocare have reached an agreement.**

**Advocare remains in-network.**

We are pleased to share that we have reached a multiyear agreement with Advocare. As a result, you will have uninterrupted access to your Advocare health care professionals.

Ensuring that you have access to the doctors you want to see at a reasonable cost is a responsibility that we take seriously. Medical costs should never prevent someone from getting the care they need.

We know that the relationships you have with your doctors are important, and we regret any stress that you may have experienced as we worked with Advocare to reach this new agreement. Horizon is committed to empowering our members to achieve their best health. That's why we work hard with doctors and hospitals across our state to ensure you get the quality, affordable care you need.

We appreciate our ongoing partnership with Advocare.
