ORDER R5-2023-0034

RESCINDING WASTE DISCHARGE REQUIREMENTS

The California Regional Water Quality Control Board, Central Valley Region (Central Valley Water Board), finds that the Central Valley Water Board adopted the following Orders which are no longer applicable for the reasons shown:

A) THE BOEING COMPANY, GROUNDWATER EXTRACTION AND TREATMENT SYSTEMS GET HB, SOUTHERN GROUNDWATER STUDY AREA GET, AND ADMIN GET, SACRAMENTO COUNTY, ORDER NO. R5-2017-0096 (NPDES PERMIT CA0084891)

Waste Discharge Requirements Order R5-2017-0096 (NPDES Permit CA0084891) adopted on 11 August 2017 prescribed requirements for the Boeing Company Groundwater Extraction And Treatment Systems GET HB, Southern Groundwater Study Area GET, and Admin GET (Facilities) in Sacramento County. Order R5-2017-0096 authorized discharge of treated groundwater from both facilities to Morrison Creek, tributaries to the Sacramento River. On 15 April 2022, the Boeing Company submitted a Report of Waste Discharge in accordance with its existing individual National Pollutant Discharge Elimination System (NPDES) permit. Based on the Report of Waste Discharge and subsequent information submitted by the Discharger, staff determined that the Facilities are eligible for coverage under the *General Waste Discharge Requirements for Limited Threat Discharges To Surface Water, Order R5-2022-0006-01* (Limited Threat General Order). The Central Valley Water Board's Executive Officer issued a Notice of Applicability (R5-2022-0006-017) with an effective date of **1 July 2023**. Since regulatory coverage for the discharge of treated wastewater to surface water will be provided under the Limited Threat General Order, individual Order R5-2017-0096 is no longer necessary and is appropriate to rescind, effective 1 July 2023.

B) CITY OF LATHROP, LATHROP CONSOLIDATED TREATMENT FACILITY, SAN JOAQUIN COUNTY, WASTE DISCHARGE REQUIREMENTS ORDER NO. R5-2016-0028-01
