

UNITED STATES DEPARTMENT OF EDUCATION

OFFICE OF POSTSECONDARY EDUCATION

Issue Paper 5: Changes of Ownership and Change in Control Session 1: January 18-21, 2022

Issue:	Changes of Ownership and Change in Control
Statutory cites:	§498(i) of the Higher Education Act of 1965, as amended
Regulatory cites:	34 CFR 600.2, 600.4, 600.20, 600.21, 600.31; 668.14 (see Certification Procedures issue paper); Subpart L (see Financial Responsibility issue paper)

Summary of issues:

In recent years, the Education Department has seen an increase in the number of institutions of higher education (institutions) applying for changes in ownership, many of which result in a change in control and some of which also seek a conversion from proprietary to nonprofit or public status. These arrangements are often high-risk. As [reported](#) by the Government Accountability Office (GAO), of 59 changes of ownership from a for-profit entity to a nonprofit entity between January 2011 and August 2020 (involving 20 separate transactions), one entire chain (including 13 separate institutions) closed prior to the Department reaching a decision on whether to approve the requested conversion to nonprofit status. Three-fourths were sold to a for-profit entity that had not previously operated an institution of higher education, increasing the risk that students may not get the educational experience for which they are paying. One-third had what GAO termed “insider involvement” in the purchasing nonprofit organization (i.e., someone from the former for-profit owner was involved in the nonprofit purchaser, as well), suggesting greater risk of impermissible benefits to those insiders. Altogether, those institutions totaled more than \$2 billion in a single year (Award Year 2018-19) in taxpayer-financed Federal student aid.

The Department has determined, in light of the clear added risk that changes in ownership present, that it is necessary to reevaluate the policies and procedures to accommodate growing numbers of changes in ownership, growing complexity of ownership arrangements, and increased risk to students and to taxpayers if federal requirements for institutions are not appropriately met.

Proposal:

The Department proposes to ensure a clearer, more streamlined process for consideration of changes in ownership, with more robust processes for ensuring that such changes ensure compliance with the Higher Education Act and related regulations. To achieve these broad outcomes, the Department specifically proposes to:

Under § 600.2 Definitions:

- 1. Clarify the definitions of additional location, branch campus, distance education locations, and main campus** to address existing confusion.
- 2. Clarify the definition of a non-profit institution** by specifying non-exhaustive examples of certain arrangements that are generally not considered to meet that definition, to include an institution that holds related party financing from a former owner of the institution or an

Changes of Ownership and Change in Control 2

institution that enters into, or maintains, a revenue-based servicing agreement with a former owner.

Under § 600.4 Institution of higher education:

1. **Make a technical adjustment** to the language that ensures regulatory text is reflective of the statutory language in the definition of an institution by specifying that institutions include public and other nonprofit institutions.

Under § 600.20 Notice and application procedures for establishing, reestablishing, maintaining, or expanding institutional eligibility and certification, subsection (g), Application for provisional extension of certification:

1. **Require that institutions undergoing a change in ownership provide adequate notice** to the Secretary by submitting materials at least 90 days prior to the date of the transaction. Also clarifies the Secretary's authority not to approve an institution's participation in the Federal aid programs following a change in ownership.
2. **Codifies existing practice related to the submission of a new owner's audited financial statements.** This provision clarifies existing practice of requiring two years of audited financial statements, or—if two years are not available—financial surety in the amount of at least 25 percent of Title IV volume.
3. **Provides that the Secretary may require additional financial surety as needed,** in the amount of at least 10 percent of prior-year Title IV volume.

Under § 600.20 Notice and application procedures for establishing, reestablishing, maintaining, or expanding institutional eligibility and certification, subsection (h), Terms of the extension:

1. **Clarify that the Secretary is not required to rely on the same terms and conditions of the institution's Program Participation Agreement (PPA) prior to a change in ownership.** This would provide the Department with leeway to add additional terms and conditions to the provisional PPA with respect to the change in ownership, regardless of the conditions that were applied to the institution prior to the change.
2. **Makes technical adjustments to the regulatory language** to clarify that following a change in ownership, an institution is placed on a temporary program participation agreement (TPPA). This would be a non-substantive change designed to better reflect current practice.

Under 600.21 Updating application information:

1. **Clarify the reporting requirements for a change in ownership** to better reflect the many types of changes in people or entities that may occur and that must be reported to the Department, including clarifying when a "person" (defined in 34 CFR 600.31) refers to a natural person or an entity. As part of these changes, the Department proposes to increase reporting, generally by moving from reporting at a 25 percent change in ownership to a 5 percent change in ownership, to ensure that the Department has greater visibility into voting blocs and other types of corporate changes that may warrant greater scrutiny.

Under § 600.31 Change in ownership resulting in a change in control for private nonprofit, private for-profit and public institutions, subsection (c), Standards for identifying changes of ownership and control:

Changes of Ownership and Change in Control 3

1. **Make technical changes to the definition of “ownership or ownership interest,”** already included in the regulations to ensure clearer interpretations of when a change in ownership has and has not occurred.
2. **Revise the standards for identifying changes of ownership and control** for other entities. Many of the reported changes in ownership of at least 25 percent do not result in a change in control. The Department proposes to instead focus on changes that are historically more closely aligned with changes in control, to include changes of at least 50 percent in control or voting interest; changes in a general partner or managing member; and the addition or removal of any person that provides the financial statements to satisfy financial responsibility requirements in the regulations.
3. **Revise “excluded transactions” language** to allow the Department to more easily determine whether a particular type of transaction qualifies as excluded.

The paper also refers to changes included in the Certification Procedures issue paper related to conditions that may be applied to institutions undergoing a change in ownership.
